Buenos Aires, Argentina

About Me

Second-year Software Development student at UADE, with a strong orientation towards IT. I'm interested in applying and further expanding my technical knowledge within dynamic corporate environments. I have experience in projects utilizing Java and SQL, complemented by training in Python, cybersecurity, artificial intelligence, and web development. I seek to join technology teams that value continuous learning, collaboration, and social impact.

Education

Associate Degree in Software Development, Universidad Argentina de Empresas

March 2023 - Present

Courses and Certifications

Java Script, Coderhouse

June 2025 - Present

Web Development, Coderhouse

April 2025 – June 2025
